Note to Invente: Please sign mans on a list 15 exactly as it appears in list: 14 and insert the axistal dine of signing on lise 16. If there are more than floor inventors, please add a copy of this page for identification and signatures for the additional inventors.

2700 STEVENSON, DAVES MILLER & MOSHEE, LLF.

- line I Insert the same title as is used on the specification and in the assignment
- line 2 Is optional but is provided to that you can use it to identify more readily an application prior to the time that the Patent Office application prior in themselves it assigned. We suggest what the specification, devaluage and declarational shapes you are all fear underst inside it can bely to get the papers together in case they become insiderentify separated. In intrances where the specification is filled without a signed declaration form (under 3 CRE 48; 133) a file number on a later section apparate from will assist as in associating it with the correct case.
- line 3 Check this box if the specification, elaims and drawing (if any) are attached to this declaration form, e.g., when filing a new patent application.

lians 4.5. Are only used in an instance where the application is already on the eart the deciration from its being organizely filled, e.g., when the applications was registally filled without a signed deciration or where the Parent Office has registed are not exclusation because of a deficiency in the original declaration. In such an instance the Parent Office with require that time 4 and 5 be completed with the filling due and application scaled sources already exclusive sections.

line 6 Is used in conjunction with line 5 but only when there have been one or more amendments to the specification or claims. Line 6 is also used when the Examiner requires a new doctaration because elaims inserted by amendment cover subject matter not originally claimed (37 CFR §1.67).

lines 7-10 Are for PCT (Patent Cooperation Treaty) cases and are used <u>only</u> when you are entering the U.S. National phase (Chapter I or II) based upon a previously filed PCT International application designating the U.S.

- line 7 Check this box if this is a PCT National Phase application
- line 8 Insert PCT International application number.
- line 9 Insert date of filing of PCT International application.
- line 10 Insert the date of all amendments filed in the PCT International application. Such amendments are optional, so this line at times will not be need.
- tine the lis used in the following instances:
 - (i) If a single priority is being claimed from a foreign application you need to list only the first-filed application; you do not need to list other countries if all applications were filed within one year of the U.S. filing.
 - (ii) If multiple priorities are being claimed, from a spirality of applications filed in one or more countries, you must lot for first filed application for each aspect or the invention. Example: If aspect A of the intention was disclosed in an application filed I I months earlier in country. For an aspect awas disclosed? months earlier in an application filed in country I, then the applications in both countries X and Y must be identified. Only the figs application for each aspect on the averation needs to be identified provided all applications for a page of the information of the averation needs to be identified provided all applications for the appear were filed without now appropriate on the on the page of the invention needs to be identified grounded.
 - (iii) If a <u>non-priority</u> application is being filed you must list <u>all</u> applications in all countries where corresponding foreign applications were filed <u>more than one year prior</u> to the U.S. filing. This is so the Eleminer can check to see if any of those applications were published or parented early enough to be prior at a quality the U.S. application.
 - (iv) If there are more than two applications to be listed we suggest that you type in on this form only "See attached Schedule A" and then list all of the previous applications on an attached sheet.
- line 11b Is used to claim priority under 35 USC §119(e) based on a provisional application filed within one year of the filing of the instant application. More than one provisional application may be identified provided neither was filed more than one year earlier.
- line 12. This block is used only in instances where there is a proviously filed <u>U.S.</u> non-provisional application which was corporating at the time the present application was for in being filled. Into previous application would be at U.S. non-provisional application or the National and Philosocial Professional application was the consequently of the provisor application was the central to the private of percent application was the central to the private of percent application and the central to the private of percentage applications was central to the private of percentage applications for the central central percentage application is destinified as a containing application forcettmants on, deviolent of the central percent application. When foreign the percentage is percentaged to the central percent application. When foreign the percentage application was the percentage application and the percentage application application a
- line 13 Type the inventor's proper legal name in the order specified, e.g., "John B. JONES" or "J. Bob JONES" if the inventor so prefers. It is not acceptable to use only initials such as "J. B. JONES."
- line 14 The inventor's "signature" may be his (or her) usual manner of signing but it is preferable that the inventor simply write his (or her) name in his (or her) own cursive handwriting in the same order as on line 14, e.g., given name, middle initial and Family name.
- line 15 Insert the actual date of signature.
- tine 16 Insen simply the city and state or country, e.g., "Paris, France", of the inventor's <u>residence</u>, not citizenship. No street address or postal code is required on this line.
- line 17 Insert the inventor's citizenship. The statement of citizenship (or subject of) is a statutury requirement (35 USC §115). Simply the name of the country of citizenship, e.g., "Japan" is sufficient.
- line 18 Insert he insertor's multing address. The purpose of requisiting the post office address is no enable the Paraco Office to communicate discretely with the inversor if specialist, such as in the case of death of the LS charrey. It should be the address where the inversor constructing receives his (or her) mult and should include the post code. If applicable it can be the inversor's business address or address at place of repulsyment.
- Applicates are reminded that the U.S. Paters and Trachemak Office has very strict requirements as to proper execution of an application. The applicant should make nor with the previous the observable of significant should make nor with the previous the observable or significant should make not be observable or significant should make not be observable or significant should make the observable of significant should make the observable of significant should be observed that the observable of significant should be observed that the observable of significant should be observed to so so will require the effiting of an applicamental declaration. Failure on 50 or will require the effiting of an applicamental declaration.
- Any handwritten changes to the specification, claims or drawings must be in ink personally by all of the inventors prior to singing the declaration and the adjacent left margin must be initialed and dated by all of the inventors, e.g., "JBJ 6-9-91".

 Please let us know if there are any questions regarding proper completion of this form. Thank J
- An assignment, a separate document requiring separate signature and dating may be enclosed. Please look for it and sign and date it in the same manner as in lines 15 and 16 above.
